Special Announcement.

As everybody, in the social and commercial worlds, and in the Legislative, Judicial and Executive departments of government, take a rest at this season, we do not propose to except the splendid force of the Record. Beside this, certain changes are to be made in the office fixtures, and we are preparing to install several new features in our paper, which we hope will make it more attractive.

In view of these facts, we will not issue again until January 1st. Our splendid crops of correspondents are, therefore, notified to mail their next letters on Monday, December 28th. We send greeting and the compliments of the season, in advance, to correspondents, patrons, the office force and all mankind, in every condition of life.

Discard selfishness.

Compliments of the approaching season.

It is a sin to keep children from a show or to deny them the pleasures of Christmas.

We will talk with the Fiscal Court, next issue, in reference to the insecurity of our jail.

We suspect that some of our neighbors have not killed hogs, as we have no evidence of the fact.

Mr. John Holmes' horse ran off, throwing him from the buggy, causing some bruises, but no serious injury.

Pleasant Grove.

Don't forget the Christmas tree at Pleasant Grove Christmas evening 24, at one thirty o'clock.

A. D. Stevens, living near Crab Orchard pike, lost his residence and nearly all his furniture by fire, Sunday afternoon. No insurance.

The Sunday School of the Baptist church will have a Christmas tree, at that church, on Thursday, December 24, at 5 o'clock, p. m., with plenty of gifts to gladden the hearts of the young.

Elder F. M. Tindler writes, from Carlisle, that he is there for a funeral, and will preach there next Sunday. He will preach at New Antioch on the 4th Sunday. Instead of the 3rd. He has not found any one to fill his pulpit here next Sunday.

Cured Her Turkey.

L. G. Hotkin, Paris, Ky., says: "My wife gave her turkey to a poultry cure when they were dying and it cured them. It is the best remedy for fowls we have ever used." Sold by J. R. Mount, & Co., Lancaster, Ky.

Christmas Tree.

The Sunday Schools of the Presbyterian and Christian churches will have a Christmas tree at the Court House on Thursday evening Dec. 24 at 5 o'clock. Santa Claus will be there and everybody is invited to come and bring their presents for distribution.

Committee in charge: Mesdames F. P. Frisbie, W. L. Williams, W. O. Rigney, Emma Kaufman, Jessie Fox and W. S. Embury.

Committee on decorations: Mrs. Hedges, Misses Helen Gill, Lena Hedges, Della Tindler, Messrs Hascum Ford and George Harris.

Solicitation Committee: Mrs. R. L. Elkin and Mrs. John M. Farra.

Distribution Committee: Messrs R. L. Elkin, R. T. Embury, D. W. Hedges, and George B. Harris.

The classes of Mr. Nichol, Mrs. Frisbie and Mrs. Kirby will prepare decorations for the tree.

Mrs. Stornes and Mrs. Elkin to support setting of tree.

The Lancaster Band will furnish music.

Sutton.

Mrs. Lucy Sutton, age 83 years, died at her home, one mile from this city, on the Lexington pike, last Saturday. Funeral services were conducted at the residence, on Sunday afternoon by Rev. C. M. Shouse, assisted by Rev. O. P. Bush, and an unusually long procession of ardent friends and loving relatives followed the remains to the Lancaster Cemetery, where the body was laid to rest to await the judgment, which will have no terrors for her gentle, Christian spirit.

She was a member of the Baptist church and possessed the Christian virtues, in a marked degree, and the noblest traits of womanhood. Highly intelligent, well connected, an affectionate mother and a kind neighbor, she will be missed by the community, for such a life always contributes to the happiness and welfare of the country, and spiritual gloom and darkness follow its departure.

Her husband, H. O. Sutton, preceded her, having died some years ago. Two sons, Messrs. Fred and H. O. Sutton, splendid types of true manhood, upon whom her excellent traits are most beautifully reflected, survive her. The first named son has two daughters, Mesdames J. E. Dickerson and Mike Kennedy. H. O. is unmarried and lived with his mother, for which reason the loss will fall more heavily upon him. The Record tenderly sincere condolence.

Give to the poor.

Loosen your heartstrings and your purse strings will be loose.

R. Zimmer has leased the Stormes Flat, to be used as an annex to the Kengarian Hotel.

A large crowd heard Dr. Pierce's address at the Methodist church on Sunday night and everybody was highly edified.

The Danville Lumber Co., through Mr. O. P. Lane, is putting a handsome new front in the Blue Front Store, on Public Square.

Mrs. Henry E. Woolfolk died at Danville last Saturday. She was a prominent lady, being a sister to H. Gill and Samuel E. Hoyle, of Louisville.

Hughes & Swinebroad sold for J. E. Nevins, his handsome cottage, on Water Street, to F. G. Hurt, for \$1,850. We are glad to note that Mr. Hurt and his mother will occupy the property, and Mr. Nevins will not leave the city.

Examinations.

Those desiring appointments to the Eastern Normal School are requested to be at the County Superintendent's office, in this city, next Saturday morning 10th, at 9 o'clock, a. m., as appointments will not be made after that date.

Mr. T. S. Elkin and Son, of Lancaster, have moved to Danville. They have leased one of the Weisler store rooms on Fourth street and are preparing to open up a meat market and grocery.—Danville Advocate.

We regret to lose Mr. Elkin and his excellent family. We hear that his son, R. B. Elkin, will remain here.

Whiskey Stolen.

A barrel of whiskey was stolen, from the Pilgrimage Distillery warehouse near town, on Monday night. The thieves cut a hole through sheet iron, opened the door, rolled a barrel out, drew out about fifteen gallons and left the remainder. L. E. Herron, Chief of Police, suspects some parties; and we notify him that a number of black cakes are being made, by the ladies for the Holidays.

More Kind Words.

Clever and popular Louis Lardram, who recently sold the Lancaster Record, and which he so ably edited for fourteen years, has accepted a position on the Richmond Clamox and will shortly move to that place. One of the brightest paragraphs in the Kentucky press, he will make the Clamox one of the leading papers of the State. We congratulate that paper on securing his services.—Harrodsburg Democrat.

Familiar Quotations.

Give the authors of each quotation and if from Shakespeare state what play it is from:

Mr. R. E. McRoberts has installed a gasoline light plant in his drug store.

A Christmas treat will be given to the Sunday School, at the Methodist church next Sunday morning.

We are glad to learn that Mr. John Goodloe, who was painfully injured by a horse running with his buggy, is much better. He was thrown from the vehicle, against a telephone post and so injured as to be unconscious for several hours.

Card Of Thanks.

I take this method of expressing my deep-felt gratitude to my friends and acquaintances for their many kindly ministrations so tenderly given to my dear mother during her recent illness; and I invoke the richest blessings of Almighty God upon each and every one of them for their expressions of sympathy.

Clay Sutton.

The old churn used to turn out fine butter on the farm. Now, with the knowledge of handling cream ripening and churning it that has become so general, the churn should be able to turn out really gilt-edge butter. Such butter would promptly put a profit into dairying. The dairy farmer afraid of the churn can not hope to make money out of milk.

Circuit Court.

Adjourned last Saturday, but Judge Bell came back Wednesday to hand down some judgments in civil actions. Considerable business was disposed of during the term. The case against Henry Shirley, colored, of Daviess, for murder, referred to in last issue, resulted in a verdict of 21 years, in the penitentiary, and the case against Raymond Ray, charged with Ku Kluxing, resulted in a hung jury.

A Special Occasion.

Dr. Pearce will conduct services at the Methodist church in Lancaster next Sunday at 11 a. m. at night union service at the Presbyterian church. Dr. Pearce by request and as delegate and representative of the National Executive Committee of Federation of American churches will continue the series of addresses on that subject. A general interest has been expressed for further presentation of the work of the great assembly that adjourned in Philadelphia last week, conceded universally to have been the greatest event in the history of the Churches of Christ in America.

RUNNING FOR OFFICE.

A Candidate Publishes His Expense Account.

They have a law in Georgia that requires every candidate to file a schedule of his expenses in running for a nomination or an office. A candidate in the recent primaries, therefore publishes the following list of his expenditures:

"Lost 4 months and 32 days canvassing; 1,349 hours thinking about the election; 5 acres of cotton; 25 acres of corn; a whole sweet potato crop; 4 sheep; 5 shots and one beef given to a barbecue; 2 front teeth and a considerable quantity of hair in a personal skirmish; gave 97 plugs of tobacco, 7 pairs of suspenders, 4 calico dresses, 7 dolls and 14 baby rattlers. Told 2,880 lies; shook hands 23,453 times; talked enough to have made in print 1,900 large volumes size of patent office reports; kissed 123 babies; kindled 14 kitchen fires; cut 3 cords of wood; pulled 474 bundles of fodder; picked 77 bushels of cotton; helped pull 7 bushels of corn; dug 14 bushels of potatoes; tilled 27 buckets of water; put up 7 stoves; was dog bit 4 times; watch broken by baby, cost \$3 to have repaired. Loaned out 3 barrels of flour, 50 bushels of meal, 150 pounds of bacon, 37 pounds of butter, 12 dozen eggs, 3 umbrellas, 13 lead pencils, 1 Bible dictionary, 1 mow blade, 2 hoes, 5 overcoats, 5 boxes paper collars, none of which have been returned. Called my opponent a perambulating liar—doctors bill \$10. Had five arguments with my wife—result: One flower vase smashed, 1 broom handle broken, 1 dish of hash knocked off the table, 1 shirt bosom ruined, handfuls of whiskers pulled out, 10 cents worth of sticking plaster bought, besides spending \$1,768." Thus is the doctrine of publicity vindicated in the most ample manner.—Louisville Herald.

A Parallel Case.

Mrs. Upton—Yes, that is my daughter's piano; but she has been married. Mrs. Dowdton—Just the name with my daughter and her typewriter.—New York Weekly.

He Knew.

"How old are you?" asked the little fellow of the lady caller.

"Oh, Harold, you must not ask a lady such a question!"

"Why not, mamma; she is not supposed to tell the truth!"—Yonkers Statesman.

The Breaking Point.

Mrs. Flynn—"Th' landlord has raised th' rent t' fifteen dollars, Molke."

Mr. Flynn—"Th' heartless wretch! It wor all we could do ivy month to bate him out av th'!"—Puck.

General News.

The American battleship fleet has arrived at Colombo, Ceylon.

John L. Sullivan, the former pugilistic champion, was granted a decree of divorce in Chicago.

On his special train J. Pierpont Morgan traveled from Chicago to New York in seventeen hours, establishing a new record.

The withdrawal of American troops from Cuba will begin January 1, and all persons connected with the Provisional Government, both military and civil, will have left the island by April 1st.

Judge Taft is contemplating a trip to Panama before his inauguration as President next March. Judge Taft is deeply concerned in the success of the big project and wants to keep fully in touch with the situation.

Chicago is to have six weeks of revival services beginning March 1, next, under the leadership of the Rev. J. Wilbur Chapman, of Philadelphia.

William Nelson Cromwell gave out a lengthy statement regarding the Panama canal controversy in which he vigorously denies the published charges that he profited financially by the deal.

Secretary of the Navy Meters in his annual report discusses the long cruise of the Atlantic battleship fleet at length, and says that the results have more than answered the criticisms of those who opposed the journey.

Representative Sherry led the fight on the floor of the House for the bill designed to protect silens in this country. The vote stood 100 to 100 and was passed when Speaker Cannon cast his vote in its favor.

The statement of the New York Clearing-house banks for the past week shows that the banks hold \$16,899,822 more than the requirements of the 25 per cent reserve rule. There was a decrease of \$3,227,150 in the proportionate cash reserve as compared with the previous week.

Incidents of the recent campaign furnished the cue for the merry making at the annual fall dinner of the Gridiron Club at Washington, President Roosevelt, President elect Taft and many other men prominent in public life were guests. Miniature steam rollers were the souvenirs.

It is not probable that the House of Representatives will go to any great length in resenting the aspersions on the members in President Roosevelt's message. If that part of the document is ordered expunged from the record it is reported that the President will send a special message repeating and amplifying his remarks.

The grand jury at Union City, Tenn., which has been investigating the Reelfoot raids, reported thirty-two indictments, including thirty-eight men. The State refused to divulge the nature of these indictments, simply announcing that the present grand jury had completed the work done by the grand jury during the October term.

Dispatches to Dun's Review indicate seasonable conditions in the business world, wholesale lines moving slowly because of inventories, while holiday goods are in better demand than a year ago. There is a better inquiry for iron and steel, and anthracite collieries are working at full capacity.

Hearing on the tariff will be continued throughout the winter by the Ways and Means Committee, and it is now generally accepted that the House will pass a bill in accord with Judge Taft's ideas. All Philippine products

will be placed on the free list, but the amount of sugar and tobacco admitted free will be restricted.

The National League of Baseball Clubs appointed a committee of four of its members to investigate reports by Umpires Klem and Johnston that an attempt was made to bribe them at the New York-Chicago game played at the New York Polo Grounds on October 8. The names of the men who are alleged to have attempted bribery were not disclosed.

A new record in the transaction of the public business was established by the House of Representatives. The legislative executive and judicial appropriation bill, which usually excites considerable discussion, lasting for several days, was passed with little debate and practically in the shape in which it came from committee. An unusual feature was that no member asked for time to indulge in general talk.

The facility which the bill of 165 pages was put through was the subject of much comment on the floor, and the members of the Appropriations Committee felicitated themselves on the outcome. The bill carries an appropriation of \$35, 665,320.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by F. P. Frisbie, 1m

Unfitted Knowledge.

"Paw, have you ever been east?" "Yes; I spent a year in New York city when I was considerably younger than I am now."

"Well, what is the 'eastern question'?"

"The only one I ever heard was, 'How much is he worth?'"—Chicago Tribune.

The Voice of a Director.

"This business of giving people a lot of straps to hang onto in the cars is all wrong!" exclaimed the indignant citizen.

"That's right," answered Mr. Dustin Stax, with sudden interest; "the public ought to be made to furnish its own straps."—Washington Star.

Inconsistency.

"My physician is a very inconsistent man," said the heat sufferer. "In what way?"

"He advised me to keep perfectly quiet and avoid all excitement and then he invited me to go with him to the baseball game."—Washington Star.

ANNOUNCEMENTS.

To the Democratic party of the 13th Judicial District: I am a candidate for the Democratic nomination for Circuit Judge of this district. I prefer a primary election.
M. C. SAUFLEY.

We are authorized to announce Hon. Chas. A. Hardin, of Harrodsburg, as candidate for re-nomination for the office of Commonwealth Attorney for the 13th Judicial District, subject to the action of the Democratic party.

Congress will adjourn to-morrow, until January the fourth.

It occurs to us that the establishment of Postal Savings Bank, by the National Government, would manifest bad faith on the part of the Government, since it publicly declares that those National Banks, passing under its scrutiny, are worthy of public confidence, yet in the same community the savings bank would bid for the deposits. Again, the operation of a bank is a local matter, and the interference of the Government would reveal the worst form of the Centralization of power; and, worst of all, it opens the way to fraud by making deposits exempt from legal process. There are other objections, which we propose to give later.

The World congratulates Edward H. Harriman on his accurate and detailed advance knowledge of the President's message. His confidence has been abundantly vindicated. The President's message to Congress recommends "the very thing which I suggested," and which Mr. Harriman was so confident that it would recommend. In Mr. Roosevelt's opinion, "The railroads of the country should be put completely under the interstate Commerce Commission and removed from the domain of the anti-trust law." It would then be lawful for Mr. Morgan, Mr. Harriman, Mr. Rockefeller, Mr. Hill and Mr. Gould, in the manipulation of their railroad properties, to do anything that an Interstate Commerce Commission composed of political hacks permitted them to do. (New York World (Ind. Dem.))

Distributing gifts, at this season,

manifests the beauties of the soul. An attempt to make others happy reveals a noble trait of character, which is in marked contrast with the cold, sordid and selfish heart, which is not moved by the joy which flows from a grateful soul, on receiving a token of remembrance. The spirit of giving is akin to that spirit with which the world was imbued, when the windows of Heaven were opened, God descended, took upon himself the flesh of man, and gave living force to the expression, "It is more blessed to give than to receive." The approaching season is intended to celebrate the birth of the Christ, who taught us how to give, by giving up the glories of Heaven and even his own life to make us happy.

There is then no wonder that all Christian nations take part in this celebration. By common consent, all nations have celebrated the birth of their statesman and their military heroes, and yet their combined efforts have never done any good for mankind, when compared with the heaven-born scheme of human redemption. Let us conform our lives to this spirit, by sowing kind words and reaping smiles, instead of sowing angry words and reaping frowns. May our lives emulate that spirit which came from the courts of glory, 1908 years ago, and shed its beauty and life-giving power over the spiritual world, as the great orb of day sheds its effulgent beams throughout the physical world.

The educational campaign in Kentucky which closed about a week ago seems to have created no great stir through the state. The daily newspapers have commented very sparingly, both on the campaign itself and its immediate influence, yet, every county in the state was reached, and people generally have been pleased to learn that so much has been done, and that to be done in the near future for Kentucky.

Special attention was given to the discussion of the new school law, and its points of excellence. Much was said also with reference to the County High Schools. Every county in the state is to have at least one High School, and the first one to be located in each county will be at the county seat. However, the County School Board is permitted to make arrangements with the trustees of any existing High School located at the county seat, for accommodating all pupils of the county who are prepared to enter the High School.

This feature is one of interest to the people of Lancaster. There are, perhaps, fifty pupils in Garrard County who are now ready to ask for admission to the High School, and in four years time there should be double this number. It is probable that the County School Board will seek to enter them into the Lancaster High School. These pupils will bring a considerable sum of money into the town, in way of board, etc. Besides, many families will want to move into town for the sake of educational advantages.

Our school authorities should see to it that provisions be made for accommodating these County High School pupils when they apply for admission.

Medicine That Is Medicine.

"I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters: a medicine that is medicine for stomach and liver troubles, and for run down conditions," says W. C. Kestler, of Halliday, Ark. Electric Bitters purify and enrich the blood, tone up the nerves, and impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at R. Muscular Pain Cured.

"During the summer of 1903 I was troubled with muscular pains in the lower part of my foot," says Mr. S. Pedlar, of Toronto, Ont. "At times it was so painful I could hardly walk. Good Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says, "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by F. P. Frisbie. 1m

The marriage of Mrs. Juliet Gill

bride's mother, Mrs. Battle D. Gill,
Wednesday afternoon, at one o'clock.
The ceremony was performed by Rev.
C. C. Brown, of the Presbyterian
church, in the presence of the imme-
diate family. The bride is an only
daughter and truly "the sole heir of
heart and home" of the devoted moth-
er; a woman full of energy, with capabil-
ities, and industrious, not always
found in a petted child of fortune, and
she is an ideal daughter. She is pos-
sessed of great musical talent, both
vocal and instrumental, and received a
thorough education at one of the
leading institutions of the country. The
groom was reared in New York
City, but has made his home in Wash-
ington in recent years, being in the
service of the U. S. Government in the
surveying and engineering corps. He
is a polished gentleman, of highest ed-
ucation and bearing. His duties call
him to the Pacific coast a great deal
and he and Mrs. Barnard will spend
much of their time there. The wed-
ding gifts were extremely handsome,
and the lovely bride was most gener-
ously remembered. She was unusu-
ally handsome and beautifully gowned
in a superb Directors gown of grey
satin, handsomely embroidered
in gold and trimmed in duchesse-
re. Her going-away gown was a
handsome brown broadcloth, with hat,
gloves, shoes and furs to match. Mr.
and Mrs. Barnard left at once for a
trip to New York and other Eastern
cities, after which they will return to
Washington, where they will reside.

BY FRANCES MARGARET FOX

SNOW had been falling in the mountains many days before Christmas. Down in the sunlit valley mother and little Nina gazed up at the shining peaks and were homesick. They would gladly have forgotten snow, but father was in a mountain cabin all alone.

"Will he hang his stockings by the stone fireplace?" asked Nina, "and don't you suppose he'll be 'vited some-where to dinner?"

"I wish we had stayed with him," said mother. "If he can live through the winter in the mountains, so could we."

"But he told us 'no, don't you remember? He said he brought us to southern California on purpose so we could live always in a summer land."

Mother sighed. The little family had been west only a few weeks when father was offered a position as book-keeper for a lumber company away up in the Sierras. Living in the mountains had been delightful through the summer, but the first hint of cold weather the tent home was packed, father bought a cabin and sent mother and the little daughter to the valley.

Father was an artist and he declared that he should like nothing better than to paint pictures of snowy peaks with no one to interrupt him and nothing else to do but to guard the company's property.

"It is a wonderful chance," he had insisted.

Mother and Nina had tried to believe he was right; but the little bungalow which they really adored furnished, seemed but a poor excuse for a house.

"I wish I could see him hang up his stockings," continued Nina. "Oh, I wish I could put this penknive in his making in the very top of it!"

Mother made no reply. She wished so much that she, too, might help fill that lovely stocking in the mountain cabin.

"Oh, mother, mother!" exclaimed Nina, dropping her spoon and salsars and springing to her feet. "I have a beautiful idea! You always have to keep your Christmas presents, don't you?"

"Surely not," was the answer.

"But, mother, suppose you wish your Christmas present hadn't come. Would it be very polite to tell the ones that gave it to you that you were getting along nicely without their Christmas present and that you really didn't want it?"

"Why, of course not, Nina. We must think of the lovely thought behind the gift, even if Uncle John should send no skates this very winter!"

Two arms flew swiftly around mother's neck.

"Oh, I have such a beautiful idea," repeated Nina. "We'll ride on the stage with the Christmas box and give ourselves to father for a Christmas present. He wouldn't return his Christmas present, now, would he?"

"Would you be contented, Nina, to live up there all winter?" asked mother. "You must remember that we will be four miles from Fredaba. You will have no little girls to play with, no school, no Sunday school, no—"

"But, mother, can't we have a school with you for the teacher, and a Sunday school? Can't I have a whole row of snow men to play with? And, mother, we'll have a real Christmas!"

Thus it happened that two passengers went up the trail on the last stage of the old year.

"Anybody going to meet you in Fredaba?" asked the stage driver.

"The weather is pretty severe up here a few thousand feet higher. Had lots of rain in the valley and that means snow storms in the mountains."

"No one will meet us," said mother, "but we know the trail from Fredaba and our burros are there, although we didn't expect to see them again until next summer."

"You can telephone from Fredaba," suggested the stage driver. "They tell me your husband has a telephone out at camp."

"But we're Christmas presents," exclaimed Nina. "So we will surprise him. Don't you know that to-night will be Christmas eve?"

"If the wind doesn't come up, you'll be all right," the man replied, but unless I'm mistaken, there's a heavy snow falling in the mountains this minute."

At Fredaba every one advised mother and Nina not to attempt the trail until morning. This time it was mother who would push on. "We know the trail so well," said she, "and the burros know it better. In two hours we can reach camp."

"It seems to me," said the stage driver as he watched the two disappear around the curve, "it seems to me that some folks haven't any sense," and shutting his lips in a determined fashion he went to the telephone and called for Nina's father. "I'll tell him

But for the Faithful Burros They Could Not Have Kept the Trail.

They were thoroughly frightened. They couldn't talk except to urge the burros on. The wind took their breath.

"We won't be Christmas presents, I'm afraid," sobbed Nina, through chattering teeth.

"Say your prayers," suggested mother. "It is all we can do now."

They had long since dropped the reins and trusted the burros to choose their own way. Mother recalled story after story of men who had perished on those mountain trails and she blamed herself for ever attempting such a journey. Suddenly a welcome sight appeared before the struggling travelers.

"The lights of Mr. Dean's cabin!" exclaimed Nina. "Oh, mother! We have reached Mr. Dean's ranch and we're still alive! To-morrow we'll see father!"

A funny thing then happened. Both burros began to bray. Mother and Nina laughed and cried at the sound. Instantly the signal was answered. Robert Dean flung open the cabin door and in a flood of light beheld his visitors.

"Well, well, well!" he exclaimed. "Who told you that we're having a Christmas dinner here this evening, turkey and all? Why, Miss Nina, your father is or was at the table!"

The next thing Nina knew she was in her father's arms and mother was removing her wraps.

"Are we frozen or anything, mother?" asked the child.

"No, we're all right and so are the burros," was the reply.

"Oh, how glad everybody is!" the little girl exclaimed. "And I'm hungry—said—and father, we're your Christmas presents!"

Father, for some reason couldn't say "thank you," but didn't speak of returning the precious gifts and it is doubtful if anywhere in the valley below there was such happiness as fitted the mountain cabin that Christmas eve.

Why She Stood There.

"Don't you think," suggested a young man to his partner in a dance, "that we should move further up the room out of the draught?"

"Oh, well, if you like!" replied the girl, snappily.

It was only when they moved away that the young man noticed that they had been beneath a large bunch of mistletoe.

Paroid Roofing—

Paroid Lasts Longest

Because it is made of the best felt—made in our own mills (established in 1877) other manufacturers buy their felt outside and simply saturate and coat it. Because it is soaked in a special Paroid compound which makes it water proof in every fiber. Because it is coated on both sides with the strongest, thickest, smoothest, toughest, most flexible coating used on any roofing. Don't take our word alone for it. Compare Paroid with any other. You can see and feel the difference. Paroid does not break or crack in the roughest weather.

Because it is applied with our patented square, rust-proof caps—water proofed on both sides—the only caps that will not rust, work loose and cause leaks.

These are some of the reasons why we can give Paroid as strong a guarantee—only it lasts longer—why? Largely used by the U. S. Govt., railroads, factories and farms, everywhere. All we ask is that you try it, on our money-back guarantee. If your dealer cannot supply you, don't take a substitute but send for sample and price. **BUILDING PLANS FREE** Enclose 4c in stamps and we will send you by return mail our 64-page booklet plans for Practical Farm Buildings. Better do it at once.

Feed for the object desired and never allow the fowls to become over fat. With proper feeding goes exercising and without proper muscular movements the digestion will be defective and no good results can be expected.

Cattle breeding of the past few years has not been for size, but rather for quality. The breeder's beef standard of the present day is weight for weight. The market standard is not a big, heavy bullock, but fine cut.

When the plowing is all done, wipe every speck of dirt off the wood and rub a good coating of oil over the metal part. That keeps off rust and makes it sure that next spring you will have clean plows to hitch to.

MR. STAYBOLT AS SANTA CLAUS

Some Things He Would Like to Give If He Could.

"Do you know the Christmas present I'd like to make if I could?" said Mr. Staybolt. "I'd like to give cheerfulness to the downhearted; courage to the timid; and strength to the weak; the power of self-denial to those who yield too easily; and a desire to work to the lazy."

"I have often thought what a pity it is that you can't buy all these things, these helpful qualities, already put up and at such a price as to put them within the reach of all; canned cheerfulness, bottled hopefulness, courage in tablets, and strength, say, in the form of a powder, and so on, or you might, I suppose, put 'em all up canned, for that matter."

"But in the absence of such market preparations and our consequent inability to buy such things and send them as gifts to those whom they might most benefit perhaps you will permit me to offer to each a word of suggestion."

"To the dispirited take a cheerful view. To the downhearted, don't dwell on the doubtful side. To the timid, don't be afraid. To the weak, or those who fancy themselves so, try your strength. You'll be surprised to find how much you've got."

To those who yield too easily, deny yourself once, and again, and feel the joy and strength that will come back to you. To the lazy, get a job with a shovel, in a gang of laborers, under a driving boss; and if you are not glad to get back to your present job to do the best you know how at it, I miss my guess.

"I can't send you these things in cans or bottles; but if anyone of you will take my advice and stick to it, I think that Mr. Staybolt was a very kind Santa Claus."

A girl begins to hang up this mistletoe at about the age when she stops hanging up her stockings.

A peasant is a fellow who won't hang up his stockings for fear old Santa Claus might swipe it.

Christmas cigars are not always puffed up with pride.

There's many a slip 'twixt the Miss and the mistletoe.

Don't make it too strong. Many a man has been knocked out by one good, stiff punch.

Ask a truthful woman what she enjoys most about Christmas, and she will tell you the bargain sales afterward.

To sing a rhyme of Christmas time that line is but the first of it, here's hoping you may not feel blue because you get the worst of it.

When a child writes a letter of thanks to Santa Claus, it should be cherished like a rare plant. That kid isn't long for this world.

No Christmas present is so useless that you can't pass it on to some one else next year.

Remember that it is better to give than to receive—the things you don't want.

Take off the tags. Many a friendship has been severed by the price mark on a Christmas present.

I have often wondered wherein consisted the wisdom of Solomon when he had a thousand wives. I am now convinced that it must have been in living in the days before Christmas was celebrated.

It's all right to pity the poor at this peace-on-earth season, but it is also well to remember that sympathy doesn't fill an empty stomach.

Farm and Stock.

Thousands of cattle of the range in Colorado are reported to be starving.

Three acres of land, on Virgil Glassman's farm, produced a crop of tobacco this fall for \$900.

W. L. Lawson bought 10 head of nice cattle, shippers, weighing 1,200 pounds, of W. O. & E. M. Walker, at \$4 and 40c.

Givens Terrill sold to A. R. Robinson & Co., of Richmond, 10,000 pounds of tobacco at 22 cents, and 12,000 pounds at 24 cents. This is said to be the best sale in that end of the country.

Straddled fodder is said to cause spontaneous combustion in barns, and the loss of a barn and contents, valued at \$10,000, near Rushville, is attributed to that cause.

W. B. Horton shipped 19 fine mules and six horses to the Southern market for which he realizes about \$1,800. The mules were extra good, one pair weighing 2,600 pounds.

The Lancaster Tobacco Warehouse Co., is receiving about 20,000 pounds of tobacco daily and shipping out about 15,000 pounds. Prices paid run from 17 to 18 cents. On Monday they received 50,000 pounds and paid out \$8,000.

Feed for the object desired and never allow the fowls to become over fat. With proper feeding goes exercising and without proper muscular movements the digestion will be defective and no good results can be expected.

Cattle breeding of the past few years has not been for size, but rather for quality. The breeder's beef standard of the present day is weight for weight. The market standard is not a big, heavy bullock, but fine cut.

When the plowing is all done, wipe every speck of dirt off the wood and rub a good coating of oil over the metal part. That keeps off rust and makes it sure that next spring you will have clean plows to hitch to.

The American Tobacco Co., received and shipped this week from their Lebanon warehouse 90,000 pounds of tobacco and H. D. Lake & Co., over 40,000 pounds. The price paid for this tobacco will average 19c per pound.

J. I. Hamilton and A. F. Sanders sold the H. Ham farm of 120 acres about five miles from town, to C. H. and Tilda Collins, at \$65 per acre. They lately purchased it and it is a fertile farm. People are beginning to realize that tobacco lands are too cheap, as tobacco is bringing twice what it once did.

Young mules are reported bringing high prices in Bedford county, Tenn. Two mule colts, aged 16 and 17 months last week, were sold to Z. H. Pickens last week for \$500. Two others, two years old were sold to the same party for \$425. Hon. R. C. Pearson paid \$325 for a pair under two years old and refused \$400 for another pair owned by him.—Winchester Democrat.

An exchange publishes a report from Danville, Ind., which states that one Walter J. Clark, of that place has a White Wyandotte hen which has laid 240 eggs in 274 days and is still laying. As she yet has 88 days in which to complete a year's record, this hen is likely to make a phenomenal record. This hen was hatched in an incubator, and was sold to Mr. Clark for \$100. He now values her at \$1,000.

It is estimated that as a result of the sale of pooled tobacco to the American Tobacco Company and to the independent manufacturers, and also the sale of 20,000,000 pounds of Green River and some \$300,000 or 10,000,000 pounds from the "Black Patch," that an aggregate of not less than \$20,000,000 will be realized by Kentucky farmers. All these transactions have been made within three weeks. They have been record breaking deals in the history of the tobacco industry. The distribution of such a vast amount of money in the State will, so financiers say, improve business conditions and flush the banks.

Hon. Jas. Wilson, Sec. of Agriculture, in his annual report for 1908, speaks of corn in these words: "It is the greatest of all crops whose production this year is 2,613,000,000 bushels. The value of this crop is \$1,615,000,000. This wealth, grown out of the soil in four months of rain, sunshine and drought, is enough to cancel the interest-bearing debt of the United States and to pay for the Panama Canal and fifty battleships. This crop is worth this year nearly as much as the great crops of cotton, hay, and wheat combined. Compared with the averages of the preceding five years the quality is 2 per cent higher and the value 43 per cent higher."

Hon. Jas. Wilson, Sec. of Agriculture, in his annual report for 1908, speaks of corn in these words: "It is the greatest of all crops whose production this year is 2,613,000,000 bushels. The value of this crop is \$1,615,000,000. This wealth, grown out of the soil in four months of rain, sunshine and drought, is enough to cancel the interest-bearing debt of the United States and to pay for the Panama Canal and fifty battleships. This crop is worth this year nearly as much as the great crops of cotton, hay, and wheat combined. Compared with the averages of the preceding five years the quality is 2 per cent higher and the value 43 per cent higher."
